## Exploring Visual Feedback in Speech Production

Speaker: William F. Katz, Ph.D.

University of Texas at Dallas

Date: Sep. 22, 2014 (Mon.)

Time: 15:00 – 16:30

Place: Sophia University,

Yotsuya Campus

Arai Lab. (4-295C)

Language: English

Abstract: I will report on recent experiments using a 3d real-time model that gives talkers a realistic image of their own tongue movements during speech. Applications for individuals with communication disorders and for Japanese/English second language learning will be discussed.
